

COMPANY PROFILE

EMIRATES PANEL MANUFACTURE LLC

Introduction

Emirates Panel Manufacture LLC (hereafter referred to as EPM) is a long standing and respected manufacturer, specializing in various grades of Aluminium Composite Panels, Polycarbonate Solid Sheets and Sun Sheets, certified with ISO 9001:2015 certification for complying with the International Quality Standards and performing Quality Management System, designed to ensure that all products and services provided by EPM comply, as a minimum, with the specifications of our clients.

Having had a prominent presence in the UAE since the company's establishment back in 2017, our commitment to continued innovation, high quality standards and excellence in service has resulted in long term, mutually beneficial relationships with our ever-growing database of customers and suppliers alike.

With an industrial presence in countries spanning across the Middle East, Europe, Asia and Africa, EPM has a balanced geographic diversity within all the key composite and polycarbonate markets, both in developing and developed countries.

Through this association, EPM has an access to world-class research and development, best practice processes, aggressive procurement contracts and international market leverage to ensure the company remains at the cutting edge of the international composite and polycarbonate industries.

Vision & Mission

Vision:

To add value to all our stakeholders through our market leadership position in the UAE by manufacturing quality material products safely, being an employer and supplier of choice, while striving to be among one of the lowest-cost composite and polycarbonate manufacturers in the world.

Mission:

EPM will build on this vision as being an industry leader in quality, safety, ethics and education by:

- Creating long-term relationships with our customers by consistently exceeding their expectations
- Educating our workforce enabling them to complete their work tasks in the highest quality manner utilizing proven state-of-the-art technology
- Being a fair employer as well as a career and skills developer
- Producing innovative high-quality materials for our customers on time
- Strategically expanding our operations while realizing long-term profitability

Research and Innovation

EPM's philosophy is recognizing, understanding and delivering the needs of our customers, which inspires our relentless development of innovative products that are unique in form and function.

Our ongoing research and development of new products, combined with a continued investment in engineering technology means EPM can supply any brand of ACP and Polycarbonate Sheets available to our customer's unique specifications. The company strives uncompromisingly to deliver the highest of services, whilst also providing the reliability and attention to detail our customers have come to know and trust. Customers can also feel comfortable knowing that EPM will stand behind our warranties well into the future, giving one peace-of-mind for one's investment.

Manufacturing Excellence

Having a state-of-the-art facility of approximately 50,000sqm and as specialists having high precision CNC machinery, EPM's industry qualified team of engineers have numerous streamlined manufacturing processes in place, which in-turn facilitate the company being capable of producing all of our associated products in the shortest timeframe, with total accuracy and most importantly, in a cost effective manner.

This approach allows EPM to produce an average of

- ◆ 4000 tons of Polycarbonate Solid Sheets annually
- ◆ 3600 tons of Polycarbonate Sun Sheets annually
- ◆ 650,000 m2 of A2 (Fire Resistant) ACP annually
- ◆ 4.5 million m2 of Class A & B1 (Fire Retardant) ACP annually

This centrally located, warm weather facility gives EPM easy logistical and geographic access to locations and cities throughout the world.

Committed to Quality

At EPM, all employees understand, know and implement our quality policy in their day-to-day operations. We strive to provide our customers with products and services that meet and even exceed their expectations. We are committed to continuous improvement and – our Quality Management System provides a framework for measuring and improving our products and performance.

That being said and in order to maintain the highest level of customer service, EPM monitors and measures the following Quality Objectives:

- Customer Satisfaction
- On-time Delivery
- Conformance to Requirements
- Sales/Capture Rate

Moreover, we strive for an optimal product that meets customer expectations and we provide services to improve the data for our products. Close cooperation between all of EPM's subsidiary divisions ensures the best of both worlds in services and products for a worldwide coverage of the best products in the market.

EPM's Procedures are regularly reviewed by both internal and external auditors to ensure we provide our customers with the best products and exceptional services
